

# How to make a zine

Equipment: A4 paper  
Scissors

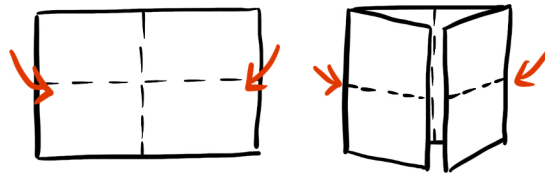

- ① In landscape, fold the paper in half, downwards.

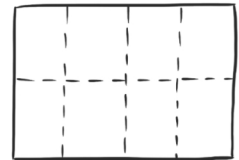

- ② Open the paper out. Fold it in half like a book.

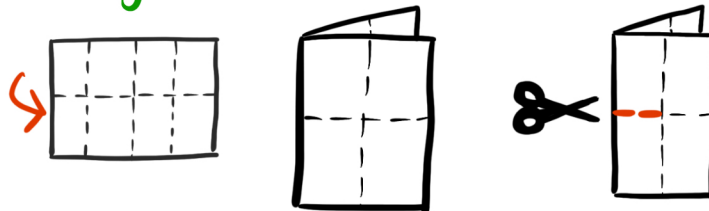

- ③ Open it out and fold each side so they meet in the middle.

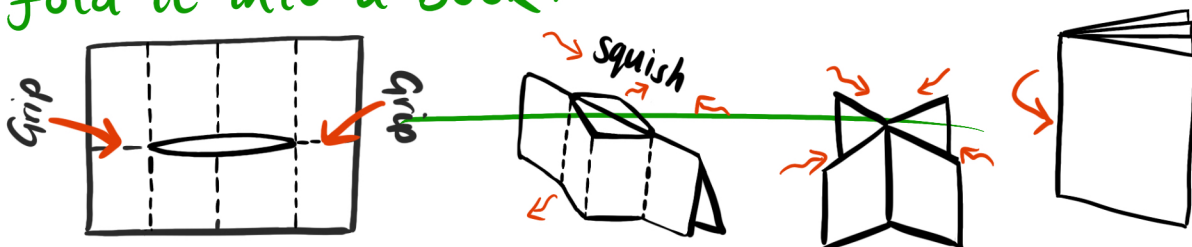

- ④ Open out the paper. You should have 8 small rectangles.

- ⑤ Fold the paper back into a book. Use scissors to cut from the fold to the first crease mark.

- ⑥ Now for the magic. Open out the paper, grip each side crease and squish it to make a 3-D plus sign. Then fold it into a book.
